### Trust in our experience and quality:

- [10 years warranty](#)
- [100% compatibility](#) with mentioned target system
- Flexible exchange and [return options](#)

## Configuration rules

| | |
|---|---|
| **Target system** | R720 (S004898) |
| **System manufacturer** | **Dell** |
| **Category** | Server |

Maximum RAM: **1.5TB**

- This system is subject to special guidelines regarding the installation of additional memory upgrades. Please review your manual before placing an order, or contact our sales team. We are pleased to provide you with a compliant configuration
- The system has 4 channels per CPU with each 3 slots
- Do not install memory modules into memory slots if corresponding processor is not installed.
- The memory slots of each CPU should be populated identically
- Dual processor configurations with memory modules installed for only one processor is not supported
- Unbuffered, registered and LRDIMM modules must not be mixed
- Each memory channel can not support more than two unbuffered or two quad-rank modules
- Each memory channel can, however, three quad-rank LRDIMM be used

When it comes to **high-quality memory upgrades**, CompuRAM is one of the top addresses. In addition to DIMM and SO-DIMM from our own CompuRAM brand, we sell high-end Samsung & KIOXIA SSDs and Supermicro components with a focus on B2B customers.

One of our particular strengths is to merge classic product sales with eCommerce solutions developed in-house, thereby offering our customers an **excellent user experience**.

Since 1997, we have been supplying quality-conscious customers with our products and services in Germany, Austria and Switzerland, but also increasingly in the European market. According to our company philosophy UPGRADE WITH KNOW-HOW - we focus on the **satisfied customer**.

The passion for what we do, creativity and the permanent incentive to offer **innovative solutions** make us a long-term successful company in our market segment.

Sustainable quality management guarantees 100% compatibility - with a 10-year warranty on every CompuRAM memory module. Because we stand behind the **quality of our products**.

**Our commitment at CompuRAM**

Trust and respect are the basis for our teamwork. We are in a continuous process of innovation and value the judgement of all employees who contribute their skills and experience to CompuRAM as part of a diverse team. We also want to work with customers and partners we trust, who value fairness, quality and reliability as much as we do.
